# European Association of Dermato-Oncology (EADO)

The EADO is a non-profit organization funded in 1999 to promote, coordinate and improve clinical and laboratory research activities in the field of skin cancer including primary and secondary prevention, early detection, clinical diagnosis and clinical and experimental research. EADO has organized many successful meetings and the upcoming ones are visible on the website ([www.eado.org](http://www.eado.org)).

The EADO initiates for the eleventh time a course dedicated to fundamentals in skin cancer targeted to specialists and residents in the final phase of their resident program. They will benefit a comprehensive and updated course to improve their decision-making process for the management of all types and stages of skin cancer, from diagnosis, primary treatment and adjuvant treatment, to the management of locoregional disease and distant metastatic disease.

## Target Audience

This 2-day educational course targets doctors who are actively involved in the treatment of skin cancer. Dermatologists or other specialists who have completed specialist training, or residents in the final year of their training program, are likely to gain the most from this course.

## Educational Objectives

The principal aim of the course is to provide a comprehensive and detailed understanding of the decision-making process for the management of all types and stages of skin cancer. This will include diagnosis and primary treatment, management of locoregional disease and distant metastatic disease, and adjuvant treatment. This is particularly relevant given the rapid progress in our understanding of melanoma and non-melanoma skin cancer, and the development of new treatments. In particular delegates will acquire the following knowledge:

1. Strategies for diagnosis of melanoma, Merkel cell and non-melanoma skin cancer including dermoscopy and confocal laser microscopy.
2. The indications, risks and benefits and strategies for mole screening.
3. Diagnosis of skin cancer: how to break bad news.

4. The indications and methods for genetic diagnosis and genetic counseling of skin cancer patients.
5. The present AJCC staging systems and how to stage melanoma, Merkel cell and cutaneous squamous cell carcinoma, and other non-melanoma skin cancers.
6. The value of imaging and biomarkers for the detection of metastases and disease staging.
7. Adjuvant treatment of skin cancer: radiotherapy, immunotherapy, chemotherapy.
8. New systemic treatments for stage IV melanoma: targeted agents and immunotherapeutics.
9. New treatment options of advanced basal cell carcinoma.
10. New systemic treatments for advanced Merkel cell and squamous cell carcinoma.
11. The characteristics of mucosal and uveal melanomas and their treatment options.
12. Options for topical treatment of epithelial skin cancers.
13. The current classification of cutaneous lymphoma, staging and treatment options for different subtypes of cutaneous lymphoma.
14. Clinical trials in skin cancer: an update.
15. The indications and strategies for supportive treatments including best supportive care.

## Course Organization

The course consists of plenary sessions and interactive outbreak sessions. Plenary sessions will comprise clear structured and up-to-date presentations followed by audience discussion. Voting devices will be used to respond to multiple choice questions. These questions may precede the presentation of the structured knowledge or may be presented at the end in order to test the level of knowledge the audience has gained.

The main part of the course consists of 6 interactive sessions, each with no more than 40 attendants. Every participant takes part in each of these sessions which mainly comprise case-based discussion. These will be used to illustrate treatment pathways, how risk and benefit are assessed, and how management decisions are made.

We look forward to welcoming you in Berlin in January 2023!

**Claus Garbe, MD**

**Axel Hauschild, MD**

**Nicole Kelleners-Smeets, MD**

## Non-Melanoma Skin Cancer Day

09:00-09:15 **Welcome and course introduction: NMSC Day**  
*Claus Garbe, Tuebingen, Germany*

**PLENARY SESSION 1: Non melanoma skin cancer I**  
*Chairpersons: Axel Hauschild, Kiel Germany and  
Ricardo Vieira, Coimbra, Portugal*

09:20-09:40 LECTURE 1: **Update on epidemiology of skin cancer**  
*Claus Garbe, Tuebingen, Germany*

09:40-10:00 LECTURE 2: **Dermatoscopic diagnosis of actinic keratosis,  
basal cell carcinoma and squamous cell carcinoma**  
*Aimilios Lallas, Thessaloniki, Greece*

10:00-10:20 LECTURE 3: **New guidelines for actinic keratoses**  
*Lidija Kandolf, Belgrade, Serbia*

10:20-10:40 LECTURE 4: **Neoadjuvant treatment of NMSC**  
*Axel Hauschild, Kiel, Germany*

10:40-11:00 **Discussion**

11:00-11:30 Break

11:30-12:30 COURSE A: **New guideline recommendations  
for the management of basal cell carcinoma (BCC)**  
*Ketty Peris, Rome, Italy*

12:30-12:40 Break

12:40-13:40		<b>COURSE B: New guideline recommendations for the management of cutaneous squamous cell carcinoma (CSCC)</b> <i>Alexander Stratigos, Athens, Greece</i>
13:40-13:50		Break
13:50-14:50		<b>COURSE C: Cutaneous lymphomas: classification &amp; management</b> <i>Reinhard, Dummer, Zurich, Switzerland</i>
14:50-15:20		Break
<b>PLENARY SESSION 2: Non-melanoma skin cancer II</b> <i>Chairpersons: Ana-Maria Forsea, Bucharest, Romania and Nicole Kelleners-Smeets, Maastricht, The Netherlands</i>		
15:20-15:40		<b>LECTURE 5: Non-invasive diagnostics for basal cell carcinoma</b> <i>Klara Mosterd, Maastricht, The Netherlands</i>
15:40-16:00		<b>LECTURE 6: Management of Merkel cell carcinoma (MCC)</b> <i>Nicole Kelleners-Smeets, Maastricht, The Netherlands</i>
16:00-16:20		<b>LECTURE 7: Management of rare skin cancers (DFSP, AFX, PDS, angiosarcoma, histiocytosis etc.)</b> <i>Ana-Maria Forsea, Bucharest, Romania</i>
16:20-16:40		<b>LECTURE 8: How to treat immunosuppressed patients with skin cancer?</b> <i>Ulrike Leiter-Stoepke, Tuebingen, Germany</i>
16:40-17:00		<b>Discussion</b>
<b>PLENARY SESSION 3: Difficult to treat NMSC: case discussions</b> <i>Chairpersons: Veronique del Marmol, Brussels, Belgium and Klara Mosterd, Maastricht, The Netherlands</i>		
17:00-17:15		<i>Case 1: Judith Oláh, Szeged, Hungary</i>
17:15-17:30		<i>Case 2: Klara Mosterd, Maastricht, The Netherlands</i>
17:30-17:45		<i>Case 3: Veronique del Marmol, Brussels, Belgium</i>
17:45-18:00		<i>Case 4: Petr Arenberger, Prague, Czech Republic</i>
18:00-18:15		<b>Discussion</b>

# Program

**Saturday, January 14<sup>th</sup>, 2023**

## Melanoma Day

09:00-09:05	<b>Course Introduction Melanoma Day</b> <i>Ricardo Vieira, Coimbra, Portugal</i>
	<b>PLENARY SESSION 4: Melanoma I</b> <i>Chairpersons: Ricardo Vieira, Coimbra, Portugal and Josep Malvehy, Barcelona, Spain</i>
09:05-09:25	LECTURE 9: <b>Do we still need sentinel node biopsies?</b> <i>Ricardo Vieira, Coimbra, Portugal</i>
09:25-09:45	LECTURE 10: <b>Gene expression profiling: should we integrate it in our daily practice?</b> <i>Josep Malvehy, Barcelona, Spain</i>
09:45-10:05	LECTURE 11: <b>Surgical treatment of subungual melanoma</b> <i>Christoph Loeser, Ludwigshafen, Germany</i>
10:05-10:25	LECTURE 12: <b>Intralesional treatments of difficult melanomas</b> <i>Peter Mohr, Buxtehude, Germany</i>
10:25-10:45	<b>Discussion</b>
10:45-11:15	Break
11:15-12:15	COURSE D: <b>Management patients with distant metastatic melanoma (stage IV): trials and more</b> <i>Christoph Hoeller, Vienna, Austria</i>
12:15-12:25	Break
12:25-13:25	COURSE E: <b>Recommendations from the updated European Interdisciplinary Melanoma Guideline (EADO/EORTC)</b> <i>Claus Garbe, Tuebingen, Germany</i>

13:25-13:35 Break

13:35-14:35  COURSE F: **Management of adverse events of targeted therapies, immune checkpoint inhibitors and combinations**  
*Caroline Robert, Paris, France*

14:35-15:00 Break

**PLENARY SESSION 5: Melanoma II**

*Chairpersons: Céleste Lebbé, Paris, France and  
Teresa Amaral, Tuebingen, Germany*

15:00-15:25 LECTURE 13: **Which melanoma patients should receive adjuvant treatment?**  
*Teresa Amaral, Tuebingen, Germany*

15:25-15:50 LECTURE 14: **Neoadjuvant treatment of melanoma**  
*Thomas Eigentler, Berlin, Germany*

15:50-16:15 LECTURE 15: **Tebentafusp for metastatic ocular melanoma**  
*Céleste Lebbé, Paris, France*

16:15-16:40 **Discussion**

16:40-17:00 Break

**PLENARY Session 6: Difficult to treat melanomas: case discussions**

*Chairpersons: Petr Arenberger, Prague, Czech Republic and  
Thomas Eigentler, Berlin, Germany*

17:00-17:15  *Case 1: David Moreno-Ramirez, Sevilla, Spain*

17:15-17:30 *Case 2: Petr Arenberger, Prague, Czech Republic*

17:30-17:45 *Case 3: Thomas Eigentler, Berlin, Germany*

17:45-18:00 **Discussion**

## General Information

### Cancellation Policy

Cancellations must be received in writing by December 23, 2022. No refunds will be granted after that date. A processing fee of 30 Euro will be deducted from each cancelled registration. Substitutions are possible. To substitute a registration, please send an email including the name of the original registrant and the name of the person substituting to [info@medconcept.org](mailto:info@medconcept.org).

The participant acknowledges that he/she has no right to lodge damage claims against the organizers should the holding of the meeting be hindered or prevented by unexpected, political or economic events or generally by force, or should the non-appearance of speakers or other reasons need program changes. With registration, the participant accepts this proviso.

### Course Organization
